

Network Support

Key benefits:

- IT support – we will become your outsourced IT department. With CSP by your side, you will no longer have to worry about software updates, replacing outdated hardware or dealing with day-to-day IT issues.
- 24 hour monitoring - our proactive 24 hour monitoring system is in place to ensure we can manage your network effectively.
- Direct line to our IT experts - your calls will be answered by a technical engineer without having to wait or navigate an automated system.
- UK based team - you will always speak to an experienced engineer when you call our UK based helpdesk.

Network Support Packages

We have fixed price support packages that are easy to understand with no hidden costs.

We can also design bespoke packages for more complex networks including handling individual upgrades and installation projects, offering 3rd Line support to your existing in-house team and complete outsourcing of all your IT.
